

Roman Cholasta

Senior Associate

Roman Cholasta specialises in information systems, telecommunications, cyber security and internet law incl. information society services.

In IT law, Roman specialises particularly in the implementation of IT systems, licensing agreements, and personal data and database protection. During his practice, Roman has participated in numerous IT implementation projects, representing both providers and customers. In telecoms, Roman advises on business regulation in electronic communications.

Before joining our law firm in 2013, Roman worked in an international law firm associated with one of the largest global consultancy firms, where he primarily dealt with transactional and corporate advice and dispute resolution, mainly in IT, the energy and automotive industries, and private equity.

Transactions
