

Petra Kašpárková

Associate

Petra Kašpárková specialises in the public sector, in particular, public procurement and concession proceedings, and advises on projects co-financed from the EU operational programs.

In the public sector, Petra specialises in providing comprehensive legal advice in connection with awarding public contracts and concessions (both on contracting authority and contractor sides), including advice on the preparation of tender conditions and organization of tendering procedures and contractors' participation in these procedures, the preparation of expert opinions and analyses of the given issue. As part of her practice, she represents clients before the Office for the Protection of Competition.

Prior to joining our law firm, Petra worked in a major consulting company where she advised on the preparation and organization of tendering procedures.

Transactions

- advising a sector contracting authority (railroad operator) on the preparation and organization of a tendering procedure for design services in the field of high-speed rail connections
- advising a contracting authority (city) as the central contracting authority on the organization of a tendering procedure to select the insurer for the contracting authority and its subordinate organizations
- advising a sector contracting authority (Czech power transmission system operator) on the preparation and organization of tendering procedures for the reconstruction and completion of the transmission system
- advising a major automotive company in connection with participation in tendering procedures
- advising a major sector contracting authority in several procedures for reviewing the contracting authority's acts
- advising a contracting authority (local authority) as the central contracting authority on the preparation of a tendering procedure for the provision of telecommunication services
- advising a sector contracting authority on the preparation and organization of a tendering procedure for the selection of the provider of specialized design services in the field of the electricity system
- advising a contracting authority (central government body) consisting of a legal audit of several dozen tendering procedures
- advising several EU fund subsidy recipients in connection with contributions due to budget discipline violation
